

Have you ever wondered what a scent sounds like?

We can perceive the connection between odor and sound by their similar effect on our nervous system.

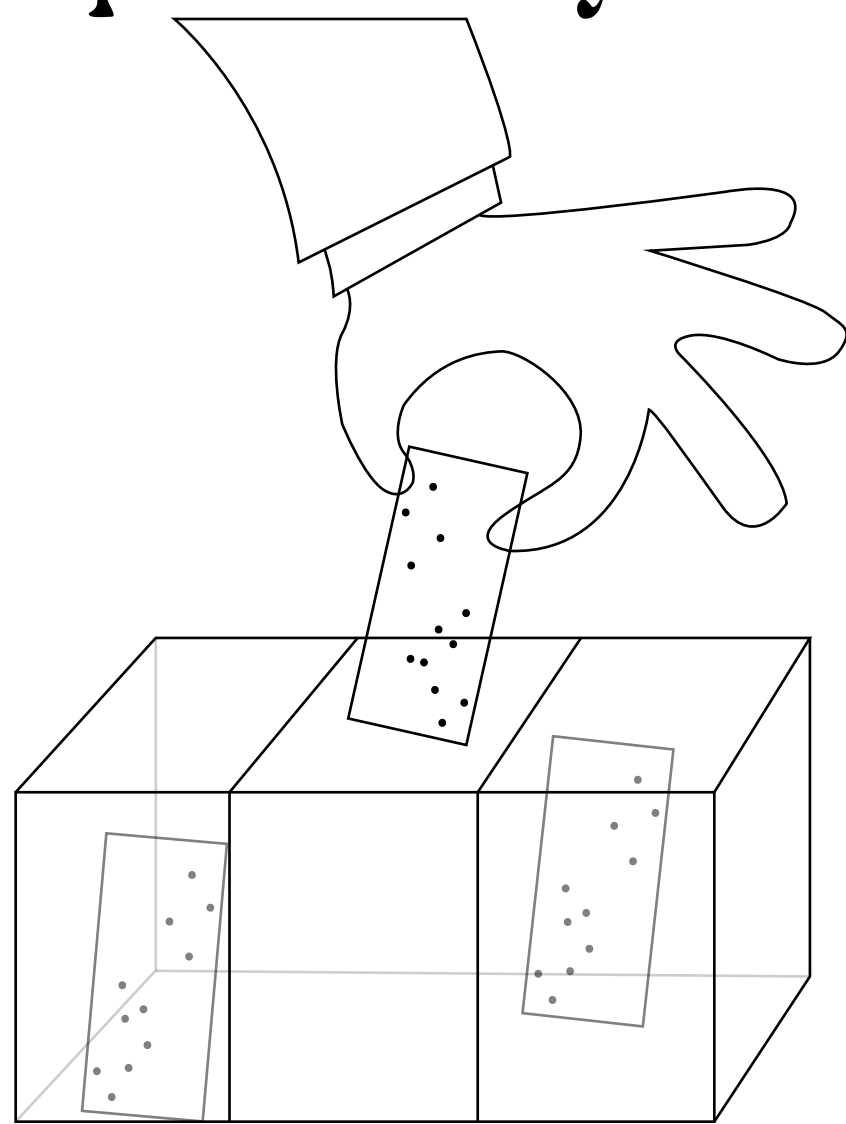

Thus, the harmony of scents may match the melody of the scale.

There are 6 music pieces composed based on the ingredients of perfumes. Your goal is to decode the key ingredients of the scent you choose by music notes and your smell.

step 1

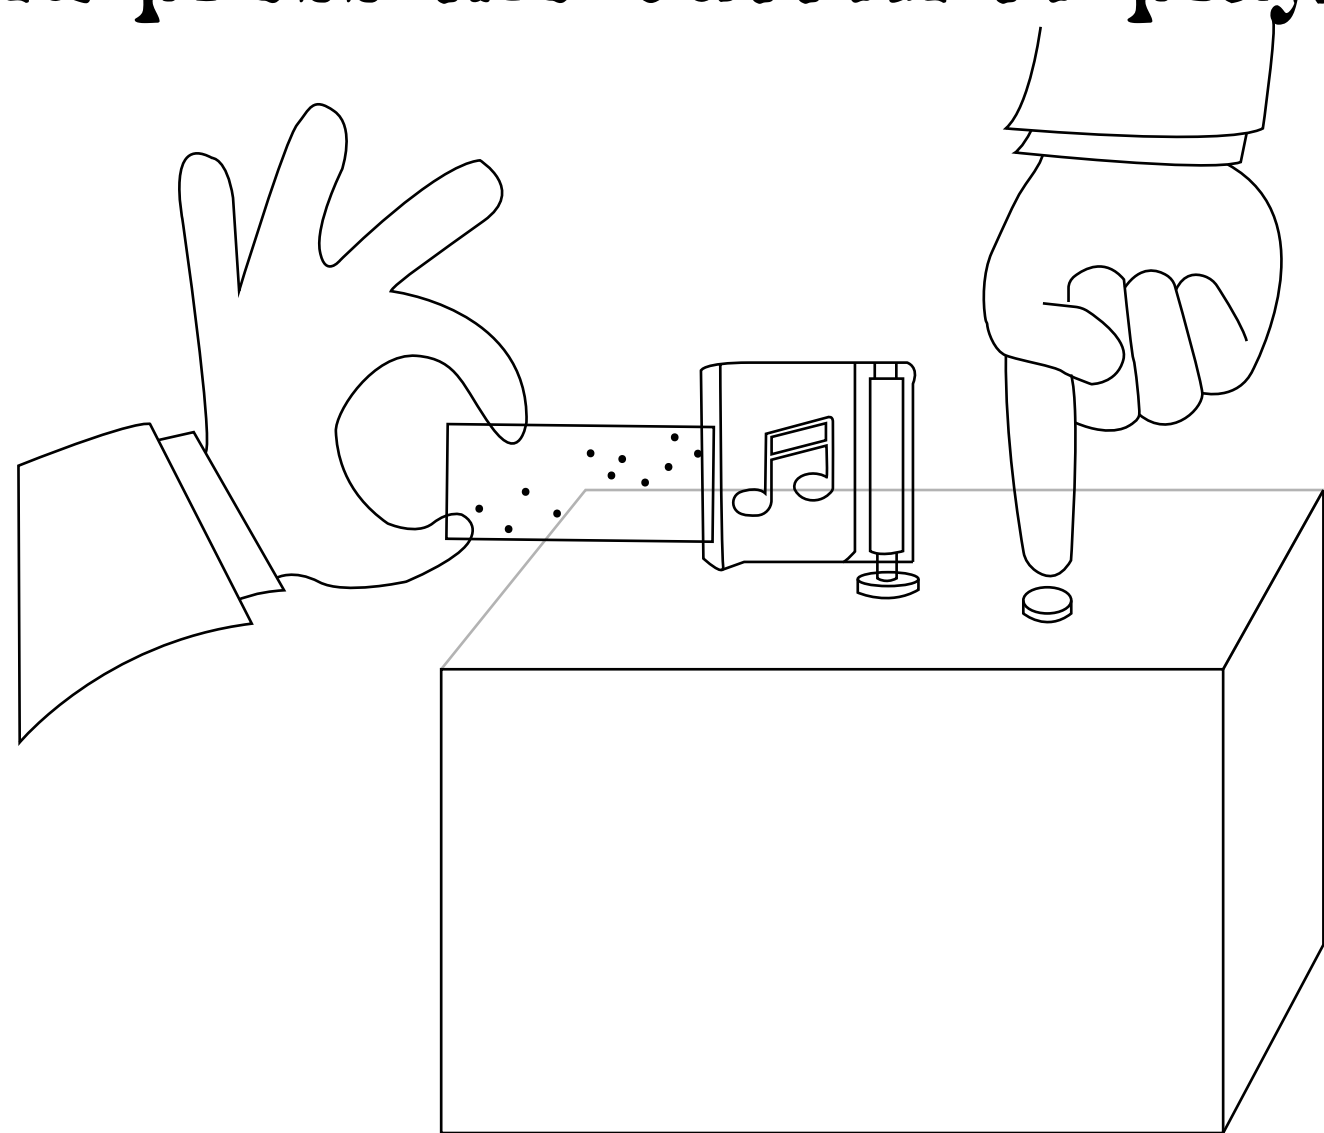

Pick up a scent you like.

6 scents are from different categories, eg. fresh, floral, oriental and woody.

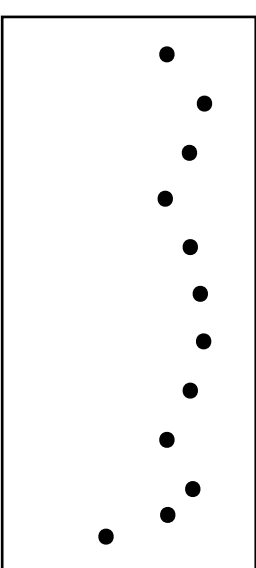

step 2

Put the scent card in the music box and press the button to play.

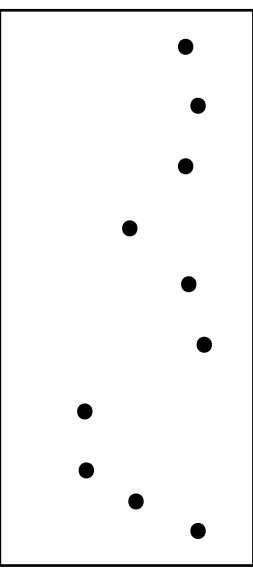

step 3

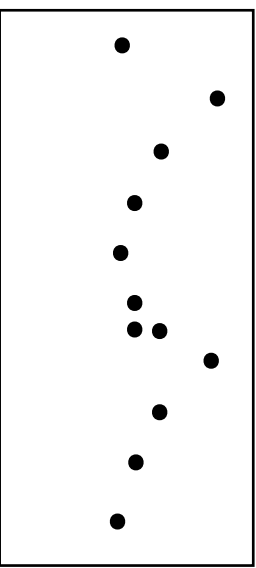

Check which music card are you holding and remember the key notes.

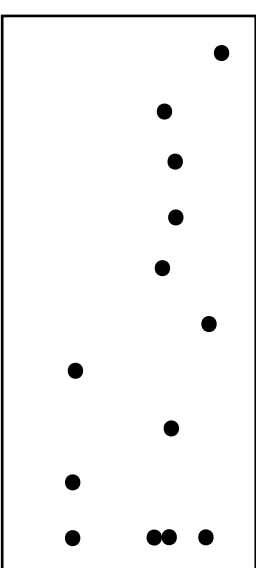

key Notes:
Ḋ G F

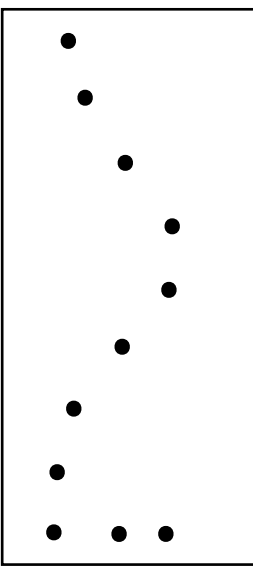

key Notes:
Ḋ Ḃ A

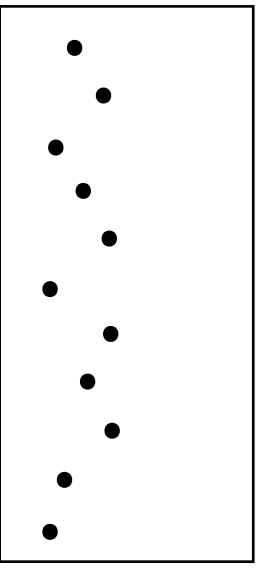

key Notes:
Ċ Ḋ C F

key Notes:
Ċ Ḟ Ġ

key Notes:
E F B

key Notes:
Ḋ C A

step 4

Check what ingredients your music piece contain

Ċ Jasmine/Pineapple/Melon	C Sandalwood/ Oakmoss/ Ivy
